REPARATIONS SUNDAY RVA TO HEAL PAST HARMS

2021 A CELEBRATION OF BLACK LIFE IN AMERICA CONCERT & COMMENTARY

We envision a world that is accountable for past harms including enslavement, colonialism, genocide, and other material and moral abuses. These past harms and continuing injustices create the present conditions in which we live and impact our future. We envision a world where racial reconciliation is possible because racism is no more. (grassrootsreparations.org) This Reparations Sunday, we honor the resilience of the African American spirit across the generations through music and words. We invite your congregation or group to join us.
